# INTRODUCING THE NEW WEYLAND RANGE IN ONE CATALOGUE

---

The Weyland brand is synonymous with quality – and has launched a larger, broader, deeper range of products than ever before!

Featuring many of the typical hand-forged items such as the T-hinges and Suffolk latches we have increased our range of cabinet hardware significantly. This gives much greater choice to you, the consumer and enables you to pick and choose the most perfect solutions.

There are exciting developments in new specialist and unique finishes that we now introduce – Roman & Norman – this gets the designer instincts brimming with ideas!

The launch of brass is coupled with some unique finishes to add to the Weyland development success story. We've constantly found 2015 consumers demand that little bit extra – Regency fulfils the demand giving a unique twist to the finishes now offered to complete your home with the individual touch.

Hope you enjoy the catalogue and we look forward to supplying you through one of our retail outlets.

*Individuality and style  
combine in product  
and finish*

“ Many products and  
finishes are exclusive ... giving the  
opportunity of something crafted  
and bespoke. ”

## OUR VALUES

*Enthusiasm:* We have a 'can do' attitude.

*Excellence:* We give 100% every time, all the time.

*Accountability:* We do what we say.

*Communication:* We take time to talk and listen.

Our relationships are built to last and based on simple principles:

*Trust, honesty and integrity...  
your welcome to the Weyland family*

## OUR MISSION

To provide a wide ranging spectrum of products that are all delivered on time that fulfill the users needs: quality, useability and aesthetics. Enhancing the living space of any environment through bespoke and sometimes handmade ironmongery.

WEYLAND

— THE ART OF HAND FORGING —

## FINISHES & COATINGS

---

### SIGNATURE SURFACE FINISHES:

#### Beeswax

---

A natural coating to a handforged product. Giving a subtle warmth to the touch. Requiring occasional maintenance with a new coat. The most popular of old handforged products.

#### Powder Coated

---

A tough modern finish designed for external use. A matt looking dull finish and not reducing the handmade effect. No maintenance required. Some hinges may require a small amount of occasional lubrication to operate.

#### Authentic Surface Finish

---

A truly individual finish with a beeswax coating. Aged and beaten - designed to look well used from day one!

### SPECIALIST RANGE:

#### Norman

---

An old fashioned internal silver grey finish. A beautiful sheen with a natural beeswax finish.

#### Viking

---

Typical copper finish, bright and beautiful. A real gem for distinctive ironmongery. Natural beeswax finish.

## Roman

A most striking and beautiful finish manufactured exclusively by Weyland. Soft tones and fantastic hues make this finish very special and unique. Very old yet subtly soft making this attractive to many situations. Finished in beeswax.

## Celtic

This pewter-effect finish has a wonderful modern feel that brings old and new together in a distinctive fashion.

## Chrome

A high-shine silver finish. Supplied in a lacquered coating. A top-quality modern finish that never goes out of fashion.

## REGENCY RANGE:

### Regency Brass

Solid brass giving the traditional rich gold finish. Supplied with a lacquer to give the 'new' finish permanency or un-lacquered to give the product the chance to age gracefully with the application of a little Brasso to bring back to life! A traditional and well-known finish.

### Regency Copper

Brass based bright copper finish. Giving you a very modern and contemporary designer look. A unique finish designed and manufactured specifically by Weyland. An individual look which will increase the charm of your surroundings! Supplied in lacquered to keep the new finish intact or un-lacquered to let it age gracefully.

### Regency Black Nickel

Subtly beautiful. A complicated and characterful finish based on brass. An almost pearlescent finish giving varying tones of colour. An up-to-date finish suitable for those looking for that unique elegant feel around your home. Supplied in lacquered to keep the new finish intact or un-lacquered to let it age gracefully.

# HINGES

The range of hinges has been designed to cover all the requirements - to list a few: Internal & external doors, designer doors, kitchen cupboards, wardrobes and cabinets.

# NUMBERS

Weyland supplies 4 different types of numbers in a powder coated finish. This is a coating that can stand up to the external environment – being often the position where they are situated.

There are 2 different fonts, the traditional rustic and the old fashioned font or a new Copper Plate Gothic font that is completely unique to Weyland. Whatever situation, wherever your customer's home is situated, there is a number to suit the environment.

## RUSTIC TRADITIONAL NUMERAL

## WEYLAND REGENCY

The Weyland brand – synonymous with quality – has launched the all new product range manufactured in brass, Weyland Regency.

Featuring products suited for everyday living in unfinished brass giving the user the comfort that over time the products will age gracefully, with beauty.

The traditional methods of rejuvenation, a bit of polish, will bring the products back to the initial attractiveness that you bought them for in the first place.

The launch of brass is coupled with some unique finishes to add to the Weyland development success story. We've constantly found 2015 consumers demand that little bit extra – Regency fulfils the demand giving a unique twist to the finishes now offered to complete your home with the individual touch.
